## Work experience

### Luxoft Ukraine

2012 — now

- Testing of web-applications (Travel industry) based on JAVA and AngularJS
- Testing of API services, A/B tests, payment systems, international localization, marketing features, checking user-tracking systems. Checking server tasks, database data, and other.
- Creating and supporting of tests on Selenium Webdriver JAVA, ProtractorJS, Appium (iOS). Improving existing frameworks.
- Cross-browser, cross-platform testing and mobile testing.
- Test documentation creation, writing of checklists and manual test cases.
- Regression testing, post-release product support, features demonstration to product owner.
- Working in teams with SCRUM and KANBAN methodologies.
- Interviewing Senior QA engineers. Establishing test process in new team. Working on-site.
- Preparing prototype for potential clients, demonstration.

### TrustSourcing

August 2011 — May 2012

- Testing of web-applications (Business application on ASP.NET platform, social network on PHP, other)
- Organization and managing of test process. Creating test documentation.
- Writing of automated tests (Selenium IDE and Selenium WebDriver JAVA).
- Product demonstration. Supporting after release.
- Knowledge sharing for developers. Interviews of QA candidates. Mentoring of junior QA.

### Freelance QA Engineer

2010 — 2011

- Testing of add-ons for browsers. Testing of web sites, programs for PC, and Mobile devices (Android). Configuration and usability testing.
  - Bug reports. Working with bug tracker system (JIRA).
- 

## Education

### Kyiv Municipal Medical College

2007 — 2010

- Specialty – Medicine.
- Practice and work in municipal hospitals.

### Kyiv Polytechnic University (Unfinished)

2012 — 2013

- Specialty – Computer Engineering.

---

## Knowledge and skills

- Testing. Theory and practice. Testing of web-applications, web sites, API services, Android, iPhone, iPad applications. Writing test cases, test plans.
- Skills in the organization of test process. Determining priority of features, criticality of bugs, risks.
- Understanding of deployment and release processes, code freeze procedure, showstoppers, configuration changes, jobs and pipelines configuration in Jenkins.
- Experience with API services. Understanding of HTTP requests/responses. Using mocks, stubs.
- Experience with UNIX. Navigation, editing files, running tasks, getting logs.
- SQL queries, and work with databases.
- Knowledge of HTML. Work with XML, JSON, and CSV data formats.
- Experience in test automation. Writing automated tests using Selenium Webdriver. CSS and Xpath selectors.
- Java experience, JavaScript (basic) and Python (basic).
- Theoretical and basic practice in load and performance testing.
- Experienced PC user.

## Software and libraries

**Automation:** Selenium WebDriver JAVA, ProtractorJS, Appium JAVA (iOS), Selenium IDE, AutoIT.

**Libraries:** MAVEN, Spring, Cucumber, TestNG, junit, Allure reporting, HTML elements, Selenide, and others. JavaScript: Jasmine, protractor-html-reporting, NodeJS, Grunt, Bower.

**HTTP protocol tools:** SoapUI, Different REST clients, WireMock.

**SQL tools:** Benthic Golden, SQL Management Studio Express, MySQL WorkBench, JDBC, Hibernate.

**Load testing tools:** Microsoft Visual Studio, JMeter.

**Bug tracking systems:** Teamtrack, Assembla, Jira.

---

## Additional information

Languages: Ukrainian, Russian, English (intermediate). Driver License "B". American Visa (B1\B2).

- Participation in conferences – Selenium Camp 2011, 2013, 2014 (<http://seleniumcamp.com/>), SQA Days 11 and 15 (<http://sqadays.com/en/index>), Agile BASE CAMP 2013. Participation in community meetings – <http://automated-testing.info/>
- Certificate of successful completion of training courses – “Programming for testers”. <http://goo.gl/C5q1z>
- Certificate of successful completion of training workshop – “How to find Bugs?”. <http://goo.gl/Bh9Xk>
- Certificate of successful completion of training workshop – “Selenium WebDriver for Java”. <http://goo.gl/mgUou>
- Certificate of successful completion of Quality Assurance learning courses in Bionic University <http://goo.gl/e9aTx>
- Certificate of successful completion of Luxoft training courses – “Java SE7, part 2”. <http://goo.gl/4mfRNp>
- Completed Luxoft English lessons. Target – intermediate level.
- First Place – Ukrainian Web Challenge 5. Nomination – QA engineer.
